What is loyalty?

In a word, loyalty is a must. Loyalty of one person to another, loyalty to one's country, loyalty to one's spouse, loyalty of one employee to one's company, loyalty of one friend to another friend, etc. can easily be examples of the term loyalty. However, today the term loyalty is widely used, but its practice is much less. That is, in many cases, we see that people, instead of hiding each other's guilt, do the opposite, betray a friend, betrayal of their spouse is a sacred thing called fidelity. causing the symbol to disappear in practice. To this day, this devotion is at a disadvantage that can be included in the well-known and popular "red book", because devotion to one another among people is disappearing. It is no secret that we live in an age where human beings are being sold. The historical culture of the Uzbek nation has many traditions and human qualities that can be emulated by our present and future generations. One of them is this devotion. It is not difficult for any young person who looks at our history to understand how loyal people were to each other in that history, how strong their love and devotion to the motherland was. The love of the great poet Hamid Alimjan for the great poet Zulfiya Khanum we talk a little about his love and devotion to each other. In 1934, Hamid Olimjon's accidental meeting with Zulfiya on the square in front of the metro station of the present-day Mustaqillik Square caused a warming between them. Until now, they only knew each other because of literary nights. Hamid Olimjon is very pleased with this chance meeting and has a long conversation with Zulfiya. After returning from that meeting, Zulfiya also writes down her feelings about the meeting, about Hamid Alimjan, and calls this poem "Spring Night". 1935 was the happiest time of their lives. On July 23 of this year, fate united the two poets' ways of life for a lifetime. Their love for each other does not affect their creativity; on the contrary, they deserve more elevation. Zulfiya recalls: We had a wedding in 1935, and I was living in exile. When a person truly loves and is loved, all the hardships around him seem to be in vain. All four seasons appear to be spring. I was like that at the time,"the poet recalls. Unfortunately, their bright life and fiery love did not last long. On July 3, 1944, the talented poet died in a car accident. Then a question arises: in the history of world literature, before Hamid Alimjan and Zulfiya, was there another family like the love and affection of the two poets?

In 1945, as a symbol of his devotion and love for his wife, our young poet Zulfiyaxanim wrote his poem "Spring has come to interrogate you ...". It shows love and attention to Hamid Olimjon. It is no exaggeration to say that each verse of the poem has as much meaning as the

world. If it is necessary to dwell on each verse separately, there is no room for description. It is not difficult to know Zulfiyakhanum's great love and devotion even by reading four verses of the poem.

How much did you love me, spring,

You were fascinated by apricot blossoms.

As if every awakened bud gave life

You put it in your eyes and kissed him.

Each line of this poem of the poet, dedicated to Hamid Olimjon, has a special meaning. It is also possible to comment on each verse.

First of all, with this poem, Zulfiyakhanim Hamid Olimjon showed how much she loves spring, the bride of the seasons.

Hamid Olimjon loved spring so much that when spring came, he would look for the poet. Zulfiyakhanim also mentioned how charming Hamid Olimjon was to the apricot blossoms, that every waking bud would give him life again, and then he would put the flower of that life in his eyes and kiss it. The great love and devotion of this couple is certainly commendable. If we pay special attention to every line, every line, if necessary, every sentence, tears will come to our eyes. Hamid Alimjan and Zulfiya are not only creative, but their devotion to each other will never be forgotten. The love of two people for each other, which are symbols of loyalty, can serve as an example to many of our young people. Their memory is immortal. For this reason, a feature film "Spring of Love" was shot in their memory, dedicated to the life and work of Hamid Alimjan and Zulfiyakhanim. According to the film's director Ibrahim Rasulov, "Spring of Love" is about the devotion of Hamid Olimjon and the poetess Zulfiya, their contribution to literature, the work of Hamid Olimjon. In general, for those who do not know what that devotion is, this poet and poetess can be shown as the main symbol of this devotion. They are truly a symbol of loyalty.
